

My son has been going to Rising Stars since he was a little baby only 10 months old. Leaving him in someone else's care was one of the hardest things we had to do as parents, but the teachers welcomed not just him but our entire family with open heart. They took care of his needs & he slowly adjusted very well in the environment. He is 4 years old & in the (big room & Kowhai room) where he is very happy & has become very independent since being there. I can see his confidence level going to the next level with the help & guidance of his teachers. He has been to all 3 rooms now & his transition each time was very smooth & the teachers in each room made sure he adjusted well by understanding his needs & him. I feel all the teachers at Rising Stars are amazing & show keen interest in all children towards their development & enhancing their interests. It's amazing to see how each & every occasion is celebrated with such pride & joy. I always look forward to the events they have as it's very heartwarming to see you little ones up on the stage performing so well & I also think it's a wonderful opportunity to connect & meet other families. I don't think it would be possible unless the teachers were so passionate about making sure that it's a memorable event for everyone involved. They have field trips as well which are great & kids get to go with their friends & teachers outside the usual environment & explore the outside world. Events like Christmas at the Retirement Village was one of the highlights for me personally last year (2017) as I saw my son performing in front of everyone with such confidence which made me very proud. I must say the centre manager Nita is one of the most humble people I have met & who makes a special connection with whom we have made a special connection as a family. You can feel that she genuinely cares. It wouldn't be possible without efforts put in by each & everyone involved.

Thank you Rising Stars

Rohini Panai.
