Rising Stars! A second home for my daughter...We enrolled Shanaya in Rising stars when she was only 10 months old. Dear me, I was so nervous! But Nita and her team were so considerate of the emotions of a new mum leaving her child away from her.

Shanaya loves going to the day care, not one day I remember Shanaya has asked me if she can stay home. Teachers at 'Rising Stars' are magicians! I always say to Nita that they are doing a very noble work. Because Shanaya was in safe hands we could be worry-free at work.

At 'Rising Stars' the kids are introduced to quality educational fun from the very beginning, where kids learn different things in a way that they have fun. The teachers are very caring, but at the same time make sure that good values are instilled in kids just like parents - laying the very foundation of creating a good human being.

We will miss you Rising stars, Nita and the team- now that Shanaya turns a new page and is ready to start her schooling! Thank you for everything.
